How to use this pack

This pack is written specifically for fitness coaches & trainers — not repurposed generic content. Everything inside is ready to copy, paste, and post as-is, or use as a starting point and adjust to your own voice.

- Each line is a complete, standalone hook or caption — copy it directly, or tweak a word or two to match your voice.
- Pair hooks with your own footage; captions work as-is under any photo or video post.
- Sections are grouped by content type so you can pull the right tone for the moment.
